**Subject:** Technical Assistance Services for Communities (TASC) Fall 2014

Hi Everyone.

We are proud to present the first of what we hope will be quarterly Technical Assistance Services for Communities (TASC) program updates for EPA staff and managers. In the attached Fall 2014 update we have included such information as, the TASC contract basics, current contract capacity by program/office, a project highlight, regional activities and more. We hope this will provide you with a current snapshot of the program. In future updates we will be highlighting in more depth how different programs and the regions are utilizing TASC services in their communities.

Please take a moment to check out what's going on across the country. If you have any thoughts on how we can improve on future updates and/or if you have a TASC project you would like to showcase, please let us know. Please feel to share this update with your colleagues.

Thanks,

Freya & Tina

TASC Program Managers
